Scientific Stakeholder Meeting on Nanomaterials in the Environment

10th -11th of October, 2017

German Environment Agency,
Dessau-Roßlau

For our Environment

**Umwelt
Bundesamt** 

Background & Objective

The meeting aims to give an overview of the results of research projects on nanomaterials in the environment, which were carried out and finalised in Germany and Europe in the current years.

The meeting will also give a forum to present the state of knowledge on nanosafety to risk assessors as well as to discuss the results and their regulatory relevance between affected stakeholders. Therefore, target audience includes representatives of science, industry, regulation and policy making, and NGOs.

This meeting will include platform and poster presentations on results of national and European projects and activities of regulatory relevance with regard to environmental relevant legislations.

Agenda

Day 1

Key Notes and Scientific Presentations

Get Together & Poster Session

Day 2

Presentations & Poster Session

Knowledge Café

Panel Discussion

Final agenda can be found at the meeting website as soon as available.

For registration

The meeting is addressed to academic researchers involved in regulatory relevant projects on nanomaterials in the environment, as well as risk assessors, regulatory experts, and industry and NGO representatives.

Website for registration: will follow soon at

www.umweltbundesamt.de/en/topics/chemicals/nanotechnology

The deadline for registration is the 15th of August, 2017.

The meeting is anticipated for a maximum of approximately 100 participants.

You are invited to submit an abstract for a poster presentation.

Please send the abstract by e-mail to the address: nanomaterials@uba.de

Your contribution will be reviewed and you will be informed after the review process.

The deadline for abstract submission is 15th of August, 2017.
