

Recommendation for a documentation leaflet for the WGK-Classification according to Annex 4 of the Administrative Regulation on the Classification of Substances Hazardous to Waters into Water Hazard Classes (VwVwS) of 17 May, 1999

	Date
1. Manufacturer/distributor details	

Company		
Department		
Contact person		e-mail-address
Street / P.O. Box		Tel.
Post Code City		Fax
State		

2. Mixture/preparation specifications

Name	
Commercial name	
R-phrase-classification according to § 4b of the Ordinance on Hazardous Substances	

3. WGK Classification

a) according to Annex 4 No. 3 (computation rule)

			Yes	No
Percentage of carcinogenic substances (R45)	WGK 2	$\geq 0,1\ %^*$		
	WGK 3	$\geq 0,1\ %^*$		
Percentage of carcinogenic substances (R45)		$> 0 - < 0,1\ %^*$		
Does the mixture contain dispersing agents?				

Components	Mass fraction based on total amount [%]
WGK 3	
WGK 2	
WGK 1	
nwg	
unknown identity	
resulting WGK	

* Other limits for R45-classifications specified according to GefStoffV are effective

b) according to Annex 4 No. 4 (test data obtained with the mixture)

	result Evaluation point/	default value
Acute oral or dermal toxicity for mammals		
Aquatic toxicity (at min. 2 species) Fish (96h) LC₅₀		
Daphnia (48h) EC₅₀		
Algae (72h) IC₅₀		
Other hazardous characteristics (according to. Annex. 4, No. 4.4)		
Total number of points		
resulting WGK		

c) according to Annex 4 No. 5 (special mixtures)

The following WGK was determined differing from Annex 4 No. 3 und 4:

Decision of the Commission for the Evaluation of Substances Hazardous to Waters (KBwS) from:

Comments of the applicant	
----------------------------------	--

Please note: This leaflet is regarded as a recommendation for the documentation of a WGK-classification according to Annex 4 of the Administrative Regulation on the Classification of Substances Hazardous to Waters into Water Hazard Classes for manufacturers and distributors of substance mixtures/preparations. The Office of Documentation and Information on Substances Hazardous to Waters (Dokumentations- und Auskunftsstelle wassergefährdende Stoffe) is not in charge of processing these classifications. It is recommended to provide customers and the regional authorities at least the above-mentioned specifications for a WGK classification of substance mixtures/preparations.
