PROJECT INFORMATION
Peer learning workshop on sustainable transport policies and implementation of the 2030 Agenda

Background
The UNECE Environmental Performance Review Programme (EPR) has been mandated by the 8th Environment for Europe Ministerial Conference in Batumi 2016 to assist the UNECE member states in supporting the implementation of the 2030 Agenda for Sustainable Development. Since 2017, the programme assists countries under review to identify systemic problems related to the achievement of relevant Sustainable Development Goals (SDGs). Also since 2017, EPR works to build the capacity in these countries to implement their EPR recommendations in line with the 2030 Agenda.

Project details
The project contributed to continuous further development of the UNECE EPR Programme and supported an ambitious implementation of the 2030 Agenda in the target countries. By organizing a peer learning workshop for the beneficiaries in Montenegro, it helped to improve and strengthen their institutional capacities for sustainable development. The workshop provided a forum for exchange of experiences and networking between national environmental authorities on implementation of the SDGs. The project focussed in particular on SDGs and targets related to air protection and sustainable transport (SDG 3, SDG 9, SDG 11, SDG 13 und SDG 14). The outcomes and follow-up activities of the workshop will be considered for the recommendations from EPRs and the work of the UNECE Environment and Sustainable Transport sub-programmes.

Beneficiary region: Caucasus, Central and Eastern Europe, Central Asia
Duration: 05/2019 - 10/2019
Beneficiaries: Environmental authorities of the beneficiary countries
Implementing organisation: United Nations Economic Commission for Europe (UNECE), Environmental Performance Review Programme (EPR)
Project number: 125915

Thematic management:
German Environment Agency (UBA)
Pia Splanemann
