

How to find us

DB By train

Arrive at Dessau-Roßlau main station. Exit the train station from the main building, bear left and you will see the pavilion of the Mobilitätszentrale as you cross the bus lot. Take the Antoinettenstraße underpass to reach Wörlitzer Platz. A footpath between Wörlitzer Bahnhof and a bridge ramp on Roßlauer Allee leads to the main entrance of the Agency offices, where you will also find the library and the Environment Information.

By car

You can reach the Federal Environmental Agency (UBA) via the A9 motorway. Get off the motorway at the Dessau-Ost exit and go along Road 185 (Oranienbaumer Chaussee – Askanische Strasse) into Dessau-Roßlau. At the “museum crossroads” turn right into Kavallerierstrasse (B 184 in direction Roßlau/Zerbst) and then into Albrechtstrasse. At Albrechtplatz turn left into Wolfgangstrasse. Continue along the signposted route to UBA, turning right into Hans-Heinen-Strasse and then left into Unruhstrasse. The UBA driveway is a few metres down the road on the right.

UBA recommends that its visitors use public transport!

Please register as a visitor at the reception in the Forum, located in the main building. Thank you!

Information about the city of Dessau-Roßlau, a map, and a directory of overnight accommodations is listed online at <http://www.dessau.de>.
