

# Share of renewable energies in gross final energy consumption

\*Source of target values: previous target of the German government (National Energy and Climate Plan / NECP, currently being revised); EU-wide target according to Renewable Energy Directive 2023 (RED III): at least 42.5 %, if possible 45 %.

Target must be adjusted for Germany and may deviate from EU-wide value.

\*\* Share of gross final energy consumption according to calculation rules of EU Directive 2009/28/EC
