German Environmental Survey for Adults – GerES VI

You are important to us!

You are cordially invited to participate in the German Environmental Survey for Adults (GerES VI) of the German Environment Agency.

You were selected at random by the residents' registration office of your city or municipality - as one of 1,500 persons in Germany that participate in this study.

Your participation is important, not just for you and your own health, but also for that of future generations. In order to take appropriate action, policy makers need facts - from the population.

If the suggestion for an appointment from our invitation letter does not suit you, we will try to find another during the week of our survey.

Please contact us: **0800 - 1121 139**
