

Prospective LCI value changes currently under review in the AgBB evaluation scheme

	Substance	CAS No.	Current LCI-value [µg/m³]	New LCI-value [µg/m³]	Remarks
	VVOC e.g.: formic acid, ethyl acetate, 2-chloropropane, ethanol, methanol, pentane				Consideration of these VVOC in the AgBB evaluation scheme is under discussion
LCI 1-7	Isopropylbenzene (cumene)	98-82-8	1700		Current LCI value under review due to the classification as a carcinogen of EU category 1B
