

## PROJECT INFORMATION

### Expert mission to identify potential cooperation approaches concerning air pollution control in Mongolia

Smog over the ger-districts  
in Mongolia's capital city  
Ulaanbaatar

Source: G. Baumbach

## Background

The Federal Environment Ministry and the Ministry of Environment, Green Development and Tourism of Mongolia agreed to intensify the bilateral cooperation. The partners identified possible cooperation fields like, among others, aspects of air pollution control, especially for Ulaanbaatar. They agreed to assess the situation in Mongolia as well as corresponding interests and needs through an expert mission. Based on that, possible advisory assistance projects should be specified.

## Project details

German experts familiar with Mongolia conducted:

- a study on air quality in Mongolia, especially for Ulaanbaatar with a general cause analysis of air pollution problems, including main emission sources, standards and limit values and the extent they are adhered to;
- a study on activities of other donors and implementing organisations in the field of air pollution control in Mongolia;
- a short on-site fact-finding to verify the study results, including interviews with Mongolian experts and an excursion to technically relevant places (residential areas, power stations and transportation facilities) in and around Ulaanbaatar.

During a professional discussion on 24th of July 2015 in Ulaanbaatar, a German expert for air pollution control presented the research results and best practice examples from Germany and the EU, which could be principally transferred into Mongolian context. Mongolian experts shared their points of view of the current situation and challenges. Together, they formulated ideas and possible focus areas for future cooperation in the field of air pollution control.

Updated: September 2016

**Target country:** Mongolia

**Duration:** 06/2015 – 10/2015

**Beneficiary:** Ministry of Environment, Green development and Tourism of Mongolia

**Implementing organisations:**

Adjunct professor Dr.-Ing. Guenter Baumbach and German Institute for International Cooperation (GIZ), LLC in Ulaanbaatar (Mongolia)

**Project number:** 57797

**Thematic management:**

German Environment Agency (UBA)

Dr. Marcel Langner

Tel.: +49-340-2103-2460

marcel.langner@uba.de

**Project coordination:**

AAP Project service unit

Ralph Wollmann

Tel.: +49-340-2103-2196

ralph.wollmann@uba.de

**Advisory Assistance Programme (AAP)**

for environmental protection in the countries of Central and Eastern Europe, the Caucasus and Central Asia and other countries neighbouring the European Union – a programme of the Federal Ministry for Environment, Nature Conservation, Building and Nuclear Safety

**AAP Project service unit:**
