

## Support for academics from Ukraine

<b>1. department</b>
V 2 - German emission trading authority: industrial plants, climate protection projects, customer service and legal matters
<b>2. brief profile of the department</b>
V 2.4: The legal office of the German national emission trading authority deals with both appeal procedures and legal advice to the responsible federal ministries in the area of German, European and international emissions trading law. This includes general administrative activities as well as advisory activities in the preparation and implementation of legal acts. In order to achieve efficient and realizable solutions the legal department works closely with experts in the different industry areas. Knowledge of administration and German language skills are required.
