Triodos Bank

Video – Our perspective on energy

LET'S CONNECT IT ALL TOGETHER

- **Innovation on energy efficiency** in newly built environments
- **Small start** with growth potential annually
- **600 families** access to energy neutral homes
- **No energy bill** for residents

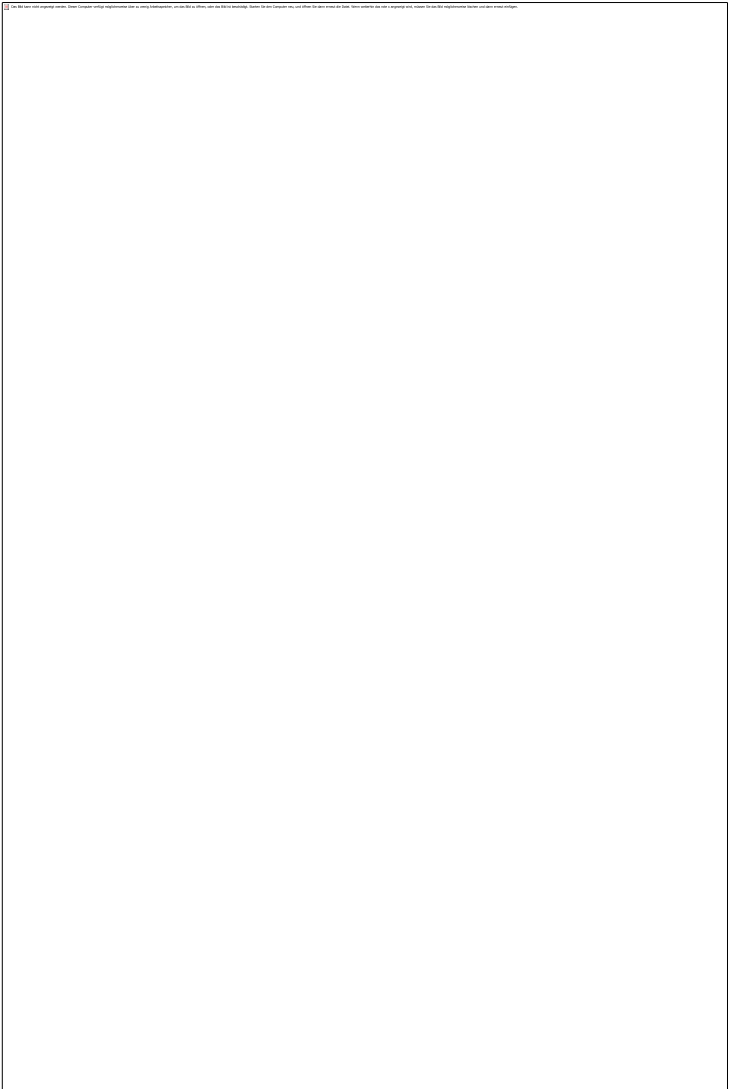

Triodos Bank

Westermeerwind

- **Largest** Dutch wind near shore
- **144 MW** located at the IJsselmeer
- **94,000 households** access to clean energy
- **198,847 tCO₂e** reduced CO₂ emission

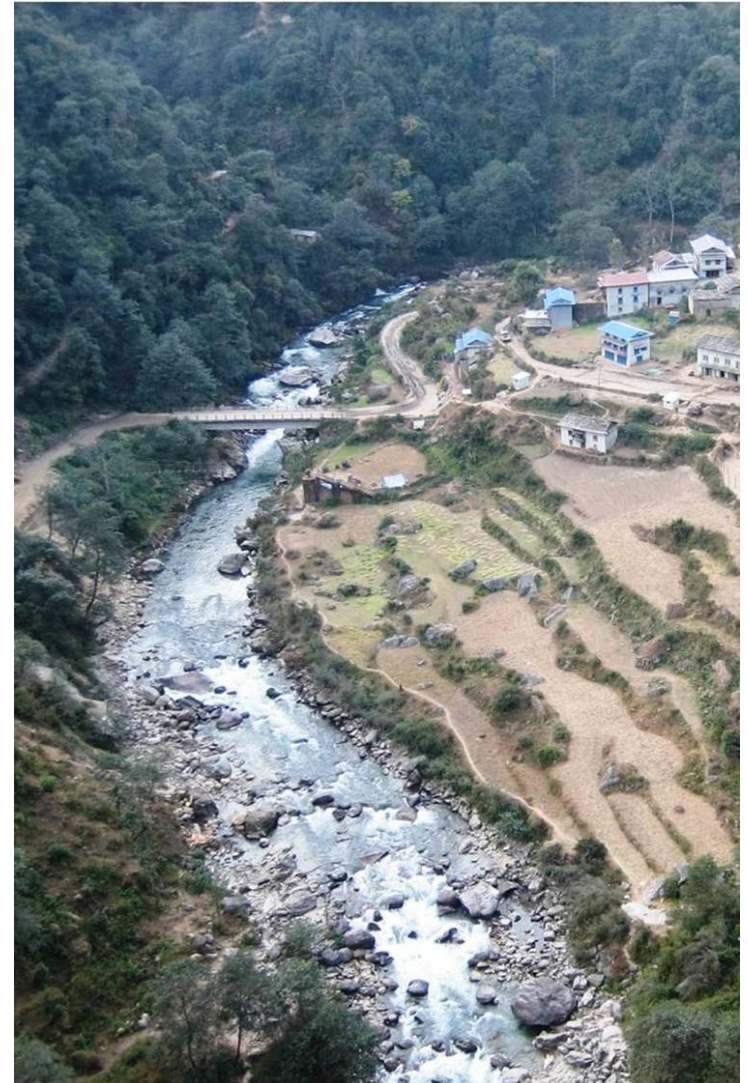

- long relationships with follow on investments
- 20 roof mounted projects in Belgium
- 17 GWh clean energy produced annually
- 5,000 households access to clean energy
- 3,700 tCO₂e reduced CO₂ emission

Triodos Bank

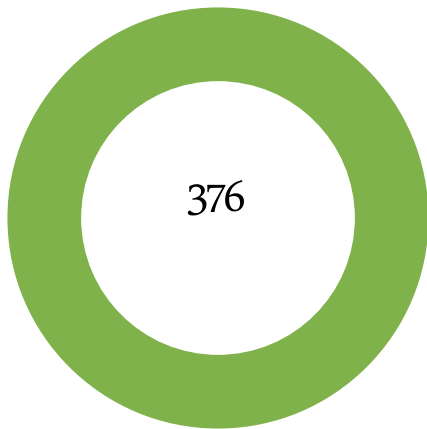

Essel-Clean Lower Solu Nepal

- **1st Hydro Project** in Emerging Markets for a Triodos Investment Fund
- **444.7 GWh** clean energy produced annually
- **12%** installed capacity added
- **3.1 million** people access to clean energy
- **1,000 jobs** created (peak)
- **352 tCO₂e** reduced CO₂ emission

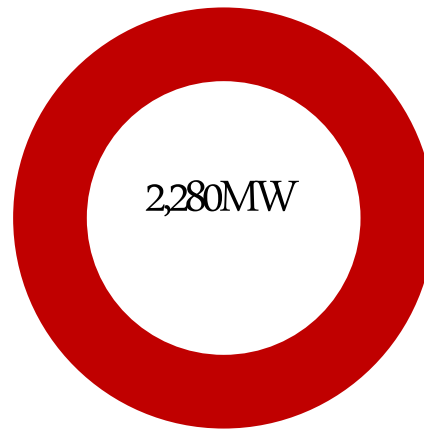

Triodos Bank

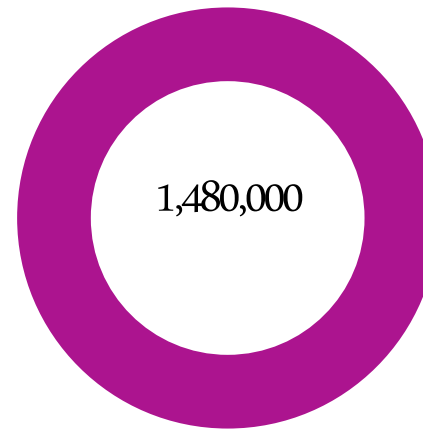

Impact in renewable energy in 2013

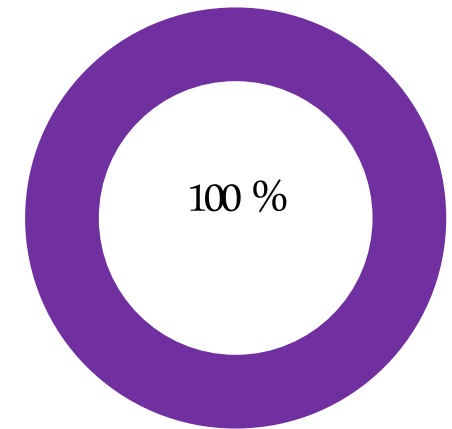

As per the end of 2013, Triodos Group and its climate and energy funds financed 376 renewable energy projects across Europe.

The renewable energy projects financed by Triodos generated 2,280MW of renewable energy.

The amount of MW's generated is sufficient to meet the electricity needs of the equivalent of 1,480,000 households during the year.

100% of the asset under management is invested in sustainable projects and entrepreneurs.
