

**Recommendation for a documentation leaflet for the WGK-Classification according to Annex 4 of the Administrative Regulation on the Classification of Substances Hazardous to Waters into Water Hazard Classes (VwVwS) of 17 May, 1999**

**Date**

**1. Manufacturer/distributor details**

Company
Department
Contact person
Street / P.O. Box
Post code City
State

Email-Adress
Tel.
Fax.

**2. Mixture / preparation specifications**

Name	
Commercial Name	
R-phrase-classification according to § 4b of the of the Ordinance on Hazardous Substances	

**3. WGL Classification**

**a) according to Annex 4 No. 3 (computation rule)**

			Yes	No
Percentage of carcinogenic substances (R45)	WGK 2	≥0,1 %*		
	WGK 3	≥0,1%*		
Percentage of carcinogenic substances (R45)		>0 - <0,1%*		
<b>Does the mixture contain dispersing agents?</b>				

Components	Mass fraction based on total amount [%]
WGK 3	
WGK 2	
WGK 1	
nwg	
unknown identity	
<b>resulting WGK</b>	

\* Other limits for R45-classifications specified according to GefStoffV are

**b) according to Annex 4 No. 4 (test data obtained with the mixture)**

	result Evaluation point/	default value
<b>Acute oral or dermal toxicity for mammals</b>		
<b>Aquatic toxicity</b> (at min. 2 species)		
<b>Fish (96h) LC<sub>50</sub></b>		
<b>Daphnia (48h) EC<sub>50</sub></b>		
<b>Algae (72h) IC<sub>50</sub></b>		
<b>Other hazardous characteristics (according to Annex. 4, No. 4.4)</b>		
<b>Total number of points</b>		
<b>resulting WGK</b>		

**c) according to Annex 4 No. 5 (special mixtures)**

The following WGK was determined differing from Annex 4 No. 3 und 4: .....

Decision of the Commission for the Evaluation of Substances Hazardous to Waters (KBwS) from: .....

**Comments of the applicant**

**Please note:** This leaflet is regarded as a recommendation for the documentation of a WGK-classification according to Annex 4 of the Administrative Regulation on the Classification of Substances Hazardous to Waters into Water Hazard Classes for manufacturers and distributors of substance mixtures/preparations. The Office of Documentation and Information on Substances Hazardous to Waters is not in charge of processing these classifications. It is recommended to provide customers and the regional authorities at least the above mentioned specifications for WGK classification of substance mixtures/preparations.
